Meeting Agendas			
<ul style="list-style-type: none">● Joe 報告● 佑安報告● 許老師建議● Meeting 後疑問			
Issues			
<ul style="list-style-type: none">● Joe 報告<ul style="list-style-type: none">1. Anew 和 WordNet-Affect 的內容 (ex:有歌詞那類的字嗎?)2. VA 表示● 佑安報告<ul style="list-style-type: none">1. conceptNet 待 survey2. 要了解小雞當初 design 的想法和運作● 許老師建議<ul style="list-style-type: none">1. 要多從底部去看去玩才能真的看到些問題2. 之後組內比較是 study group 的形式，除了真的已經針對某個問題在解的人以外，其他人的報告比較像是 tutorial 把看過的東西教會其他人			

3. 目前暫定的目標

Objective: 能進行有情感的 dialogue

Action Items:

- 1) 想想會需要哪些 building block (如 NLP 或 conceptNet 方面等等)
- 2) 之前組內的研究(如小雞或季恩和長蓉學姊的東西)的 reading list(例如 NLP 的 reading list 或是其他方面的 reading list)
- 3) 和其他相關的研究的 reading list

許老師的信：

Let me try to clarify my suggestions:

1. Let's work as a team to develop the necessary components for building a Xiaolce-like conversational agent augmented with the ability to sense (and express) user's sentiments.

2. To bring everyone to a level where we can carry out meaningful research discussions, the students have a lot of reading and experimentation to do. Please start by creating a list of MUST-READ papers separated into the different topics (NLP, ConceptNet/common sense, crowdsourcing/gamification etc.)

3. Prof. Tsai and I will check your research progress at least monthly. You may use the other weekly meetings as a study group to get a deeper understanding of key ideas -- not just surveys.

4. It is a good idea to create the meeting minutes and you may take turns as the recorder. However, I'd suggest using Google docs or wiki for everyone to contribute/comment. We should also update the meeting schedule with the appropriate links.
